

A GOOD NIGHT'S REST

"Speak for it" she cried to doggie,
For she knew in her little heart,
That German Syrup, home's great treasure,
Could health and joy impart.

The greatest tonic on earth is a good night's rest. Restless nights and the terrible exhaustion of a hacking cough are dread dangers of the poor consumptive. But why this fear of the night when a few doses of Dr. Boschee's German Syrup will insure refreshing sleep, entirely free from cough or night sweat? Free expectation in the morning is made certain by taking German Syrup.

We know by the experience of over thirty-five years that one 75-cent bottle of German Syrup will speedily relieve or cure the worst coughs, colds, bronchial or lung troubles—and that, even in bad cases of consumption, one large bottle of German Syrup will work wonders.

Two sizes, 25c and 75c. All druggists.

Card of Thanks.

Mrs. Con and Mike Bohan desire to express their heartfelt thanks to those who administered to their sister, Mrs. Mary Burns, during her fatal illness and who, so deeply sympathized with them in her death. They assure those who rendered assistance that their kindness will not be forgotten.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

FIFTY CENTS

In some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

Telephone Outdoes Newspapers.

Wireless telegraphy seems to have a sequel in the printless newspaper. Even the rural mail carrier is in a measure anticipated by the telephone in many country districts. Now the farmers on "the circuit" in the western states, where enterprise is a hustler, and innovations are welcomed instead of being fought, are to receive at least once a day, and perhaps twice, all the important news of the world. The system, it is said, is being installed in Minnesota Iowa and South Dakota, and within six months will be in vogue wherever telephones are used in the rural districts. Not only this, but every school house will be connected, and while the service is being transmitted a recess will be had, after which the teacher will impart to her pupils the news of the forenoon. The farmers will have an added advantage, for they will get the news twice a day—at noon and at 7 o'clock in the evening.

At first it was thought this would injure the circulation of newspapers but the reverse is proving true. The appetite for news grows by what it feeds on, and as the telephone oper-

ator can give in a twenty-minute talk only a mere bulletin of the news the daily or weekly paper with "the particulars" is eagerly waited for. "The most notable result of the news service," says the manager of a rural telephone line "is the increase in subscribers, and our merchants note a corresponding increase in telephone orders for goods to be sent by the rural mail carrier, while the farmer's visit to town have become less frequent, and are now seldom made when he is not going to market with his produce."—Boston Herald.
